Water Heater

Star Rating by
Bureau of Energy
Efficiency (BEE)

Hotstar presents to its customers a new series of water heaters wherein much thought has gone into the development of its inner tank, the selection of suitable safety devices and the prevention of radiant heat losses for obtaining a 5-star rating from the Bureau of Energy Efficiency (BEE) and the ISI approval marking from the Bureau of Indian Standards (BIS). While manufacturing these water heaters, we have embraced the latest heating technology, adhered to the strictest quality control measures and have utilized the highest quality components. It has always been our endeavour to provide to our customers utmost value for their money.

Salient Features

BEE Rating

Our steelium 6 ltr, 10 ltr, 35 ltr, and 50 ltr. Water heaters have been awarded with the 4-star rating and 15 ltr and 25 ltr. Water heaters have been awarded with 5-star rating by the bureau of Energy efficiency (BEE).

Quality & Reliability

High in-built quality is achieved by adopting the manufacturing process as approved by Bureau of Indian Standards. All components/raw material, having thoroughly checked/tested are only used.

Long Heating Element

ISI marked direct immersion type long heating element with high thermal efficiency and thick gauge copper tube casing ensures extended life and superior performance.

Safety Devices

The safety devices that we build into our water heaters ensure absolute safety of both the appliances and its users. Hotstar water heaters are fitted with following types of safety devices.

★ ISI Marked Thermostat ★ Thermal Cutout ★ Fusible Plug ★ Pressure Release Valve

Two Year Warranty on Water Heater

Hotstar water heaters are warranted for a period of one years from the date of purchase against any kind of manufacturing defects.

Three Years Warranty on Inner Tank

The inner container of the water heater is made either from pure copper (99.5%) or stainless steel (grade 8/18) and is warranted for a period of three years.

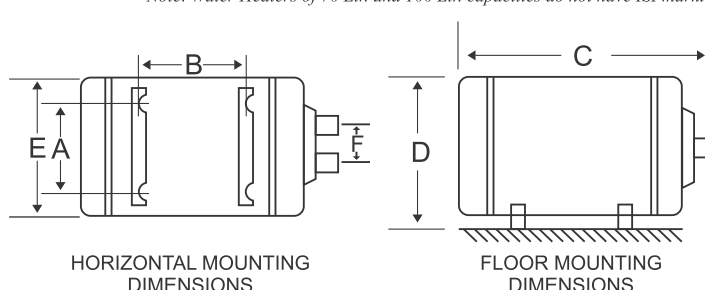

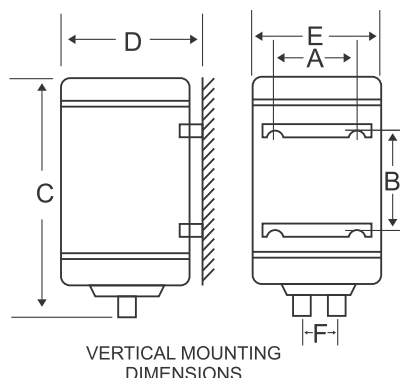

Specifications

Capacity in Ltr.	6, 10,	15, 25, 35, 50,	70, 100
Wattage	3 kW	2 kW	3 kW
Voltage	230 Volts, 50 Hz, Single Phase AC		
Inner Tank	Stainless Steel / Copper		
Outer Body	Powder Coated Metal Body		
Insulation	Glass Wool		
Thermostat	Adjustable between 30°C to 75°C		
Thermal Cutout	Set to operate at 92°C ± 4°C		
Fusible Plug	Set to operate at 99°C ± 2°C

Water Heater

Star Rating by
Bureau of Energy
Efficiency (BEE)

HOTSTAR presents to its valued customers exciting new model which is a world class product designed to give excellent performance and years of trouble free service to its users. It has got many advanced technology features such as Vitreous Enameled inner Tank, Glasslined Heating Element, Magnesium Anode, and PUF Insulation Etc. More details are furnished below.

Silent Features:

Vitreous Enameled Tank

A high quality 2 mm steel tank with vitreous enamel coating provides maximum protection against hard water and corrosion.

Magnesium Anode:

Heavy duty anode rod with steel core, protects the inner tank from rust and corrosion

Capillary Thermostat

A high-tech adjustable device with external Knob, allows a temp setting between 25°C to 75°C.

Thermal Cut-out

This safety device simply cut-off electric power at $96^{\circ}\text{C} \pm 3^{\circ}\text{C}$ and prevents the water getting over heated.

Polyurethane Foam Insulation

CFC free PUF insulation provides complete protection against radiant heat losses and there by provides energy saving of around 50%.

Glasslined Heating Element:

Glasslined Heating Element is better than copper with regard to its longevity, efficiency and anti-corrosive properties.

Multi-Functional Valve :

Automatically relieves and discharge water in case the temperature or pressure overshoot the preset limits. (i.e. 8 bar pressure).

High Pressure:

High working pressure of 8 Bar of the inner tank makes it suitable for high rise buildings.

Silent Features

Model Name	: AXIOM
Capacity	: 15 Liters / 25 Liters
Fixing Mode	: Vertical
Voltage	: 230 Volts AC, Single Ph. 50Hz
Waterproof Grade	: IPX4
Heating Element	: Glass line (2000W)
Safety Devices	: Thermostat, Thermal Cut-out, MFV
Rated Pressure	: 8 Bar
